

IMPORTANT! PLEASE READ BEFORE USING!

Baby Furniture & Equipment Received from the
Pregnancy Resource Center

The baby items given out by the Pregnancy Resource Center are generally used items that have been donated in order to be given free of charge to clients in need. The Pregnancy Resource Center does not make any guarantees and is not responsible for the safety or condition of the item(s). The recipient is solely responsible for checking the item for safety and suitability before using it. Clients are advised to check with the manufacturer for **recall** information or to obtain **instruction** manuals.

You are accepting the item(s) “as is.” However, if you find anything wrong with this piece of baby equipment, please call the Pregnancy Resource Center and tell us.

If a part is missing, we can check and see if the part is still here. We have some spare parts, so if a part is broken, we may be able to swap for a replacement part, or one of our volunteers may be able to repair it. If not, we may be able to **exchange** the item for another one. **Please do not throw it away before contacting us.**
