Health Care Advance Directive Christian Version

NOTICE TO PERSON MAKING THIS DOCUMENT

You have the right to make decisions about your health care. No health care may be given to you over your objection, and necessary health care may not be stopped or withheld if you object.

Because your health care providers in some cases may not have had the opportunity to establish a long-term relationship with you, they are often unfamiliar with your beliefs and values and the details of your family relationships. This poses a problem if you become physically or mentally unable to make decisions about your health care.

In order to avoid this problem, you may sign this legal document to specify the person whom you want to make health care decisions for you if you are unable to participate in medical treatment decisions and make those decisions personally. That person is known as your health care surrogate. You should take some time to discuss your thoughts and beliefs about medical treatment with the person or persons whom you have specified. You may state in this document any types of health care that you do or do not desire, and you may limit the authority of your health care surrogate. If your health care surrogate is unaware of your desires with respect to a particular health care decision, he or she is required to determine what would be in your best interests in making the decision.

This is an important legal document. It gives your surrogate broad powers to make health care decisions for you. It revokes any prior health care advance directive that you may have made. If you wish to change your health care advance directive, you may revoke this document at any time by destroying it, by directing another person to destroy it in your presence, by signing a written and dated statement, or by stating that it is revoked in the presence of two witnesses. If you revoke, you should notify your surrogate, your health care provider(s), and any other person(s) to whom you have given a copy. If your surrogate is your spouse and your marriage is annulled or you are divorced after signing this document, the document is invalid.

You may also use this document to make or refuse to make an anatomical gift upon your death. If you use this document to make or refuse to make an anatomical gift, this document revokes any prior document of gift that you may have made. You may revoke or change any anatomical gift that you make by this document by crossing out the anatomical gift provision in this document.

Do not sign this document unless you clearly understand it. It is suggested that you keep the original of this document with your personal papers where it can be easily accessed by your health care surrogate, close family, or friends, if needed.

_____/_____/_____, being of sound mind, intend by this document to create a health care advance directive.
Date of birth

My executing this health care advance directive is voluntary. Despite the creation of this health care advance directive, I expect to be fully informed about and allowed to participate in any health care decision for me, to the extent that I am able. For the purposes of this document, "health care decision" means an informed decision to accept, maintain, discontinue, or refuse any care, treatment, service, or procedure to maintain, diagnose, or treat my physical or mental condition.

In addition, I may, by this document, specify my wishes with respect to making an anatomical gift upon my death.

care surrogate for the purpose of making health care decisions on my behalf. Neither my health care surrogate nor my alternate health care surrogate whom I have designated, is my health care provider, an employee of my health care provider, an employee of a health care facility in which I am a patient or a spouse of any of those persons, unless he or she is also my relative. For purposes of this document, "incapacity" exists if two (2) physicians or a physician and a psychologist who have personally examined me sign a statement that specifically expresses their opinion that I have a condition that means that I am unable to receive and evaluate information effectively or to communicate decisions to such an extent that I lack the capacity to manage my health care decisions. A copy of that statement must be attached to this document.

GENERAL STATEMENT OF AUTHORITY GRANTED

Unless I have specified otherwise in this document, if I ever have incapacity I instruct my health care provider to obtain the health care decision of my health care surrogate, if I need treatment, for all of my health care and treatment. I have discussed my desires thoroughly with my health care surrogate and believe that he or she understands any philosophy regarding the health care decisions I would make if I were able. I desire that my wishes be carried out through the authority given to my health care surrogate under this document.

If I am unable, due to my incapacity, to participate in making a health care decision, my health care surrogate is instructed to make the health care decision for me, but my health care surrogate should try to discuss with me any specific proposed health care if I am able to communicate in any manner, including by blinking my eyes. If this communication cannot be made, my health care surrogate shall base his or her decision on any health care choices that I have expressed prior to the time of the decision. If I have not expressed a health care choice about the health care in question and communication cannot be made, my health care surrogate shall base his or her health care decision on what he or she believes to be in my best interest.

LIMITATIONS ON MENTAL HEALTH TREATMENT

My health care surrogate may not admit or commit me on an inpatient basis to an institution for mental diseases, a state treatment facility, or a treatment facility. My health care surrogate may not consent to experimental mental health research or psychosurgery, electroconvulsive treatment, or drastic mental health treatment procedures for me.

ADMISSION TO NURSING HOMES

My health care surrogate may admit me to a nursing home for short-term stays for recuperative care or respite care.

If I have checked “Yes” to the following, my health care surrogate may admit me for a purpose other than recuperative care or respite care, but if I have checked “No” to the following, my health care surrogate may not so admit me:

A nursing home **Yes** **No** (SEE ADDENDUM – pages 7-10)

If I have not checked either “Yes” or “No” immediately above, my health care surrogate may only admit me for short-term stays for recuperative care or respite care.

PROVISION OF FEEDING TUBE

If I have checked “Yes” to the following, my health care surrogate may have a feeding tube withheld or withdrawn from me, unless my physician has advised that, in his or her professional judgment, this will cause me pain or will reduce my comfort. If I have checked “No” to the following, my health care surrogate may not have a feeding tube withheld or withdrawn from me.

My health care surrogate may not have orally ingested nutrition or hydration withheld or withdrawn from me unless provision of the nutrition or hydration is medically contraindicated.

Withhold or withdraw a feeding tube **Yes** **No** (SEE ADDENDUM – pages 7-10)

If I have not checked either “Yes” or “No” immediately above, my health care surrogate may not have a feeding tube withheld or withdrawn from me.

HEALTH CARE DECISIONS FOR PREGNANT WOMEN

If I have checked “Yes” to the following, my health care surrogate may make health care decisions for me even if my surrogate knows I am pregnant. If I have checked “No” to the following, my health care surrogate may not make health care decisions for me if my health care surrogate knows I am pregnant.

Health care decision if I am pregnant **Yes** **No** (SEE ADDENDUM – pages 7-10)

If I have not checked either “Yes” or “No” immediately above, my health care surrogate may not make health care decisions for me if he or she knows I am pregnant.

In no event is my health care surrogate authorized to make medical treatment decisions to withhold or withdraw treatment for me if I am pregnant that would result in my death.

STATEMENT OF DESIRES, SPECIAL PROVISIONS, OR LIMITATIONS

In exercising authority under this document, my health care surrogate shall act consistently with my following stated desires, if any, and is subject to any special provisions or limitations that I specify. The following are any specific desires, provisions, or limitations that I wish to state (add more items as appropriate):

1. I request that the attached Addendum (pages 7-10) be included as a valid part of this Health Care Advance Directive document.

2. I request, but not as a requirement, that my health care surrogate consult my clergy regarding health care decisions.

3. _____

2. Execute on my behalf any documents that may be required in order to obtain this information.

ADDENDUM TO THE STATE OF FLORIDA HEALTH CARE ADVANCE DIRECTIVE

MY HEALTH CARE STATEMENT OF BELIEFS

My philosophy regarding the health care decisions I would make, if I were able to participate in medical treatment decisions, is based on my belief in the inherent value of human life and that life is a gift from God. It is my desire that all reasonable efforts be made to sustain my life and health.

I believe that death is the normal end of earthly life, and that God takes life by his decision. Therefore, I reject any attempt to end my life when God would sustain it, regardless of any diminished state of quality to my life, even if I have a disability. Similarly, I reject any attempt to lengthen my life when it is clear God intends to take it.

I believe life begins at conception. Therefore, if I have been diagnosed as pregnant and my physician knows of this diagnosis, I request that every effort be made to save the life of my unborn child in full recognition that two lives are at stake, both equal in value and worthy of protection.

HEALTH CARE DIRECTIVES

1. I direct my health care surrogate to consent to the following health care:
 - a. Health care that is intended to relieve pain or to make me comfortable.
 - b. Health care to cure or improve any physical or mental condition which can be cured or improved. This includes health care that is intended to be used temporarily or because it is potentially effective.
2. My health care surrogate has no authority to consent to any act or omission intended to cause or hasten my death.
3. I instruct my health care surrogate to ensure that my attending physician and other health care providers provide my health care based on my health care philosophy and my health care directives as set forth in this document.
4. Should it become clear that God wishes to take my life, namely that I am diagnosed to have a terminal illness or injury where death is imminent, I direct that life-sustaining procedures be withheld or withdrawn, and that I be permitted to die in God's time. I do *not* give consent for the withholding or withdrawal of nutrition or hydration, even if I am diagnosed to have a terminal illness or injury, if doing so would cause my death by starvation or dehydration rather than from the terminal condition or injury.
5. If God allows the quality of my life to be diminished but gives me strength to continue living for an indeterminate amount of time, I request that reasonable care be administered to me to sustain my life and ease discomfort as much as possible.

EXCEPTIONS TO HEALTH CARE DIRECTIVES

1. My health care surrogate may refuse consent to health care that would not be effective in terms of my survival.
2. If I have an incurable terminal illness or injury where I am in the final stages of dying, and it is medically certain that my death will occur within hours or a few days, my health care surrogate may consent to the

withholding or withdrawal of any health care that is not intended to relieve pain or make me comfortable.

3. If I have an incurable terminal illness or injury, and it is medically certain that my death will occur within six (6) months, my health care surrogate may consent to the withholding or withdrawal of life-sustaining health care. However, I still desire health care for easily treatable acute and chronic conditions, and health care that is intended to relieve pain or make me comfortable.
4. If I have a total, chronic, and irreversible loss of consciousness, and this condition has been diagnosed with medical certainty by two physicians, one of whom is my attending physician and the other is an expert in diagnosing my condition, my health care surrogate may consent to the withholding or withdrawal of life-sustaining health care. However, I still desire health care for easily treatable acute and chronic conditions, and health care that is intended to relieve pain or make me comfortable.

NUTRITION AND HYDRATION

Food and fluids

1. I believe that nutrition and hydration are basic human needs which should be provided to me even though providing them may require medical expertise and technology.
2. If I have checked “Yes” to the “Withhold or withdraw a feeding tube” option in the “PROVISION OF FEEDING TUBE” section of the Health Care Advance Directive document, then a feeding tube may only be withheld or withdrawn from me if:
 - a. I have an incurable terminal illness or injury where I am in the final stage of dying, and it is medically certain that my death will occur within hours or a few days, and
 - b. The withholding or withdrawal of the feeding tube would not result in my death from malnutrition or dehydration, or complications of malnutrition or dehydration, rather than from my underlying terminal illness or injury.

PREGNANT WOMEN

If I am pregnant, the following applies:

1. My health care surrogate is authorized to make health care decisions on behalf of my unborn child as an individual patient.
2. Health care necessary to sustain the life or health of my unborn child should be provided unless it is medically certain that my unborn child would not survive even if the health care were provided.
3. It is my desire that all reasonable efforts be made to sustain both my life and health and the life and health of my unborn child.
4. Even if I have an incurable illness or injury, or I am legally determined to be brain dead, it is my desire to receive all health care, to remain on any necessary life support systems, and to receive nutrition and hydration until my unborn child can sustain life apart from my body, unless it is medically certain that my unborn child would not survive even if I receive such health care.
5. No one is authorized to consent to an abortion for me unless it is directly and medically necessary to prevent my death.

The principal and the witnesses must sign the document at the same time.
